A CONFIDENCE PARADIGM FOR CLASSIFICATION SYSTEMS

Biblioscholar Sep 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x12 mm. This item is printed on demand - Print on Demand Neuware - There is no universally accepted methodology to determine how much confidence one should have in a classifier output. This research proposes a framework to determine the level of confidence in an indication from a classifier system where the output is or can be transformed into a posterior probability estimate. This is a theoretical framework that attempts to unite...

Reviews

This sort of pdf is almost everything and taught me to hunting ahead of time and a lot more. It is writter in basic terms and not hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- ***Kyleigh Morissette***

Completely one of the best publication We have at any time read through. We have read and so i am confident that i am going to gonna go through once again once again in the foreseeable future. I am just easily could possibly get a pleasure of studying a written pdf.
